PROFILE

Passionate Full Stack Developer with hands-on experience in Laravel and Vue.js. Skilled in building dynamic web apps, APIs, and integrating Stripe, OTP, and real-time features.

Strong in backend architecture, repository pattern, and modern frontend development. Currently expanding into the MERN stack to broaden my full-stack capabilities.

WORK EXPERIENCE

- Webpnetter Inc.

2025- PRESENT

Laravel and Vuejs

 - Developed and maintained full-stack web applications using Laravel and Vue.js
 - Built dynamic modules including Stripe integration, OTP-based authentication, and user dashboards
 - Applied best practices like Repository Pattern, API Resource responses, and form request validation
 - Collaborated on real client projects including property listings, real estate, eCommerce, and others.
- Webpenter Inc.

Aug 2024 - Dec 2024

API Developer (Laravel)

 - Developed secure and scalable RESTful APIs using Laravel, following best practices and clean architecture
 - Implemented authentication systems using Laravel Sanctum and custom OTP verification for user access control
 - Integrated third-party services like Stripe (payment processing) and Gmail SMTP for real-time API-based features
- Webpenter Inc.

Feb 2024 - Aug 2024

PHP Developer

 - Built and maintained backend functionality using core PHP, focusing on logic, form handling, and dynamic data rendering
 - Gained experience in writing clean, reusable PHP code and integrating with MySQL for data storage and retrieval

EDUCATION

- BS in Information Technology

2022 - 2026
- Islamia University Of Bahawal Pur
